PERFORMANCE

Overall Performance

Overall Results from Insights Organic and Paid Mix* ($126K spend for influencer fee)	
707,580 Total Impressions	
2,456,034 Total Reach	**37,134** Total Engagement
5.25% Total Engagement Rate	
35 Total # Pieces of Content (includes 5 earned story frames)	**482** Total Link Clicks

Overall Results from Paid Media* ($5K spend)	
2,017,872 Total Impressions	
1,966,110 Total Reach	**206,466** Total Engagements
10% Total Engagement Rate	
35 Total # Pieces of Content (includes 5 earned story frames)	**1,187** Total Link Clicks (.06% CTR)

NOTES*

1. In general, impressions are larger than reach. The discrepancy in the between reach and impressions in the organic/paid mix is likely a result of paid media and content placement on the explore page.
2. All Instagram Reels (4) were paid. One of Castro's Instagram Stories (a static post) was also paid and performed the best.
3. Once the content has been paid/boosted, we can no longer access organic metrics. Paid media timing was staggered resulting in a mix of organic and paid.
4. An ER rate is calculated by: #engagements divided by #impressions x 100%, impacting ER rates.

LEARNINGS
&
RECOMMENDATIONS

Learnings and Recommendations

	Learnings	Recommendations
Influencer	1. Partnering with previous Coca Cola influencers for the campaign. 2. Partnering with the same influencers for each of the 4 year-long activations (eMLS, EBC All Star, HHM, MLS All Star)	1. Partnering with a range of Macro tier influencers whose content type specializes in different themes (soccer, comedy, gaming, freestyling) allowed us to reach a variety of strong communities. 2. Utilizing longstanding partnerships ensures commitment, authentic content, and enforces brand loyalty.
Planning	1. Collaborating more closely with the paid media team and implementing a streamlined process from the start.	1. Hosting a kick-off call with all agencies involved to establish clear workstreams, roles and responsibilities, and a cadence of meetings to strengthen IAT partnerships and deliver a cohesive executed event and campaign.
Content	1. Instagram Reels performed best with a whopping 16.06% engagement rate surpassing our 2% benchmark by 166% and further surpassing the industry standard benchmark of .61%. Instagram Story engagement rate performed at 2.05%, exceeding the industry standard benchmark of .15% by 262%; however, 2. Content centered around recapping event highlights had the highest metrics. PAID 1. Link Stickers do not allow media to be amplified preventing traffic to the MLS and Coca Cola websites. 2. Video in stories were not able to be boosted.	1. Continue utilizing multiple formats and platforms to ensure reach and engagement across all channels and to provide a buffer for metric disparity. 2. Continue to create content that highlights the overall event and best of everything. Continue to support authentic content creation. PAID 1. When using paid media, plan concepts and tactics that fit best with paid media. 2. Use static content instead of videos for paid content. 3. IG Reels and In-Feed are preferable to boost.
Data & Reporting	1. Gathering accurate data from a paid campaign can be challenging because once the media is boosted we no longer have access to the organic metrics that are overridden by the paid media. 2. We were not aware that sticker links do not work with paid Stories.	1. Collaborate with paid media to develop a timeline that allows for organic promotion before boosting. 2. Develop strategic tactics aligned with paid media.
